GitHub: github.com/anuragkumar86
Portfolio: anurag-new-portfolio.vercel.app

Email: anuragkr8651@gmail.com
Mobile: +91-8651328318

Technical Skills

Languages: C++, Python, JavaScript, TypeScript
Frontend: React.js, Next.js 14, Tailwind CSS, shadcn/ui, HTML5
Backend: Node.js, Express.js, REST APIs, WebSocket (Socket.io), LangChain, NextAuth.js
Database & ORM: PostgreSQL, MongoDB, Redis (Upstash), Prisma ORM
DevOps & Cloud: Docker, GitHub Actions (CI/CD), Vercel, Render.com, AWS
Tools: Git, GitHub, Postman, Nodemailer

Work Experience

Freelance Full-Stack Developer — Sarash Packaging Solutions [Live] [GitHub] Aug 2025

- Next.js 13 · TypeScript · Tailwind CSS · Node.js · Nodemailer · Vercel
- Architected and deployed a fully responsive corporate website with **5+ dynamic, SEO-optimized pages** using Next.js 13 + TypeScript, achieving consistent mobile/desktop performance with Tailwind CSS.
 - Engineered server-side automated email pipeline via Nodemailer + Gmail SMTP with backend input validation, **reducing manual client response time by ~60%** and eliminating missed inquiries.
 - Configured production Vercel deployment with environment-specific build settings, delivering on schedule with **zero post-launch critical bugs** and 100% client satisfaction.

Projects

MockSentry — AI-Powered Mock Interview SaaS [Live] [GitHub] April 2026

- Next.js 14 · TypeScript · Prisma · PostgreSQL · pgvector · LangChain · Gemini AI · QStash · Redis · Vercel
- Built and deployed a **production SaaS** (mocksentry.com) with 30+ REST API endpoints, 12-table PostgreSQL schema, and 5 async background workers; all API responses return in **under 200ms** despite 3–10s Gemini AI calls.
 - Implemented a **RAG memory system** using pgvector (1536-dim cosine-similarity embeddings + Matryoshka Representation Learning), enabling persistent cross-session tracking of each user’s specific weak spots for **100% personalized** session targeting.
 - Migrated async queue from BullMQ (Render.com, Redis polling) to **QStash serverless webhooks**, eliminating **148,000+ idle Redis commands/month** and cutting idle infrastructure cost to **\$0**.
 - Designed **6-dimension AI evaluation pipeline** (Clarity, Depth, Correctness, Communication, Completeness, Overall) with round-type-aware prompts; integrated **Razorpay** HMAC-SHA256 payments, Google OAuth, and Groq Whisper voice input.

SafeWalk — Real-Time Personal Safety & Tracking App [Live] [GitHub] Dec 2025

- Next.js · TypeScript · Node.js · PostgreSQL · Prisma ORM · Socket.io · WebSocket
- Architected RESTful backend using Node.js and PostgreSQL with Prisma ORM, achieving **sub-500ms API response time** under concurrent user load with indexed geolocation queries.
 - Built **WebSocket-based live GPS streaming** via Socket.io with persistent connection management, delivering real-time location updates at **under 100ms latency** per broadcast cycle.
 - Engineered event-driven **“Dead-Man’s Switch”** dispatching automated SOS alerts on missed check-ins, ensuring **zero missed emergency triggers** via backend scheduling and idempotency guards.

ThinkLix — Scalable Quiz & Analytics Platform [Live] [GitHub] Oct 2025

- Next.js · TypeScript · Tailwind CSS · PostgreSQL · Prisma ORM
- Built full-stack quiz and analytics platform using **Next.js SSR**, reducing initial page load to **under 1s** and eliminating client-side data-fetching waterfalls for concurrent quiz sessions.
 - Designed normalized relational schema with optimized **Prisma ORM queries**, eliminating N+1 issues and **reducing average DB fetch latency by ~40%** across leaderboard and analytics endpoints.
 - Integrated **AI-assisted answer explanation pipeline**, providing context-aware per-submission feedback that **increased user session depth** and improved learning engagement metrics post-launch.

Certifications

Data Structures & Algorithms — Neo Colab (2025)	72 Hours
C++ Programming — Neo Colab (2025)	72 Hours
Summer Training in Data Structures using C++	60 Hours

Achievements

HackerRank 5-star badge in C++ and **4-star** badges in C and Python | Solved **300+ LeetCode challenges** across DSA and System Design topics.

Education

Lovely Professional University	Punjab, India
B.Tech — Computer Science and Engineering	CGPA: 8.3 / 10 Since Aug 2023
